From the Chairman of the Board

The Pocono Mountains Chamber of Commerce has a wide variety of programs, services, and professional business assistance to offer to our valued members. The purpose of these offerings are to provide leadership and resources to foster business growth while enhancing the quality of life in our region.

One of our best-kept secrets is the Leadership Pocono program. Leadership Pocono is a region-wide program designed to strengthen our community by identifying potential leaders, developing their leadership skills, and motivating them for ongoing community involvement. The Leadership Pocono program was initiated by the Chamber back in 1996 and our first class graduated in 1998. Since that time more than 100 community leaders have graduated from this dynamic program. I have been involved with Leadership Pocono since its inception as a founding board member, past chairman, presenter and mentor, but my greatest pleasure was sponsoring three of my employees through this program and watching them grow as both leaders in our agency and in our community.

Leadership Pocono covers such topics as community and economic development, government, media, leadership skills, team building, human services, education, environment, and business. Seminars are conducted one day a month for 10 months and are facilitated by experienced leaders in each field of interest. Class involvement is encouraged to assist in gaining knowledge on community issues. This program not only educates members of the business community about community leadership but also enhances their personal leadership skills.

Recruitment is starting for the next class of 2006. Please contact the Chamber office for more information.

On a more somber note, I would like to express our deepest sympathy in the loss of a fellow board member who enhanced the quality of our board simply with his presence. We will truly miss our friend and colleague Mr. Eugene Leblond.

-John Casella,
Chairman of the Board

TESTIMONIALS

"When we opened the doors of our Church in Stroudsburg, I wanted to let the public and local businesses know of our presence. The Chamber gave us an immediate radio spot for the Pastor, and different paths to present our mission to our neighborhood through business card exchanges and monthly breakfast meetings. The Chamber is a golden opportunity for any business to gain the attention of clients as long as you are willing to get involved in the various events that they offer. I thank the Chamber for the exposure that is offered, and the business advice that is freely given. I must advise you though, of the weight gain that you are exposed to because of the many food events through the Chamber... pace yourself!!"

From the President

The Pocono Mountains Chamber of Commerce is proud to host EXPO 2005. ESSA Bank & Trust has graciously agreed again to be this year's major sponsor for the third year in a row. This year marks the 18th Anniversary that the Chamber has hosted the EXPO, which is recognized as the region's largest business and community exposition. EXPO 2005 will be held at East Stroudsburg University's Koehler Fieldhouse on March 9 and 10 from 3:00 p.m. - 8:30 p.m. EXPO provides an excellent opportunity for our members to showcase their products and services, as well as personally networking with potential clients in a controlled atmosphere.

The Government Affairs Committee is focusing on several legislative priorities for 2005. Some of these priorities will be an affordable health care system for employers and employees. Rapid double-digit increases in health care premiums have become the number one concern for business owners throughout the country. Other Committee priorities include a business tax structure that is competitive with other states, a legal system that promotes fairness and common sense, and unemployment compensation and worker's compensation systems that are fair and reasonable to the business owner and are competitive with those offered in other states.

Additionally, the assessment report that is being prepared by a Harrisburg consulting group concerning our region's deficient telecommunications infrastructure will be released in the near future. The Chamber and Pocono Mountains Industries have partnered on this project, which will assist us in future financing options for an overall community broadband project. Once this assessment report is released, we will make it available to our members. The Pocono Mountains Chamber of Commerce is deeply committed to being the leading business organization while providing legislative advocacy for its members.
