

PMC's Nationally Recognized Plastic Surgeon Receives Special Recognition for Service to Veterans

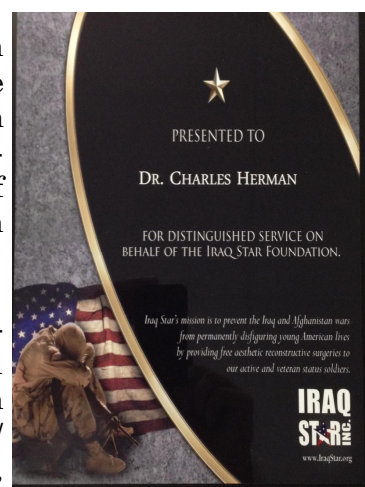

Dr. Charles K. Herman, Chief Medical Executive and Chairman of Surgery and Pocono Medical Center (PMC) received special recognition from Rebuilding America's Warriors (R.A.W.) for their work with the Iraq Star Foundation. A plaque was recently presented to Dr. Herman "For Distinguished Service on Behalf of the Iraq Star Foundation." Through this foundation, Dr. Herman has joined over 300 surgeons around the country in providing charitable medical and surgical care to injured American soldiers needing reconstructive plastic surgery.

Dr. Charles K. Herman

More than three years ago, Dr. Herman's surgery on Sergeant Tim Juliano at PMC was featured on the Discovery Channel's "American Chopper" television series and was watched by an audience of over 4 million viewers internationally. In 2007, PMC was one of the first healthcare organizations in the nation to join this initiative.

"It is both an honor and a privilege to care for our servicemen and women who have so unselfishly protected us and defended our freedom," commented Kathleen E. Kuck, President and CEO, Pocono Health System/Pocono Medical Center. Dr. Charles Herman adds, "Providing a service like this is exactly why I am in medicine as this gives me an opportunity to not only help a patient but also to serve individuals who have served us so honorably."

Iraq Star Foundation Award

More than 40,000 brave men and women have returned wounded from Iraq and Afghanistan. They must now face the daunting challenge of recovery. The Iraq Star Foundation is now part of the R.A.W., a non-profit foundation dedicated to providing free reconstructive surgery to recently wounded and disfigured active service and veteran status warriors. Individuals can learn more about R.A.W. by visiting www.rebuildingamericaswarriors.com.

In the spirit of giving, **Pocono Medical Center's (PMC's)** Environmental Awareness Council set-up red bins to collect shoes through the TerraCycle Shoe Brigade in December. The goal of the effort was to recycle old shoes through TerraCycle to help raise money for the Dale and Frances Hughes Cancer Center. This also reduces landfills with shoes and reuses new or gently worn shoes by donating them to the needy in our community.

The process involved employees and visitors donating shoes and then they were sent to TerraCycle to be recycled into various products. TerraCycle received 328 pairs in December. Recently, 364 pairs of shoes remaining were donated to four local community outreach programs. The programs include the following: 70 pairs – Women's Resources of Monroe County, 98 pairs – Pleasant Valley Ecumenical Center, 98 pairs – Bushkill Outreach, 98 pairs – Wesleyan Church.

To date the brigade efforts of the council have resulted in over \$300.00 being donated to the Dale and Frances Hughes Cancer Center. "When you add it up, that brings our total shoes collected at 1,384 and out of the landfills. We did make a difference! This was a huge success," commented Barbara Doerflein and Sandra Adams, Co-chairs of PMC's Environmental Awareness Council.

Northampton Community College will host a program on cybersecurity on Thursday, March 7, at 11 a.m. in Room 220 of the College Center at 3835 Green Pond Road in Bethlehem. It will focus on how individuals and entire communities can protect themselves against growing cyber threats.

The session will include remarks from two cybersecurity experts and will cover both general and technical aspects of cybersecurity. One of the presenters will be Kristina Dorville, a graduate of Liberty High School who now works for the Department of Homeland Security.

The program will be free and open to the public as well as to students, faculty and staff.

We are pleased to announce the grand opening of the Pocono's newest personal care and memory support facility, **Pocono Tranquil Gardens**, located at 329 East Brown Street, East Stroudsburg, site of the former Pocono Lutheran Village.

The new facility is managed by several local physicians from Neurology Associates of Monroe County, thus making **Pocono Tranquil Gardens** the only per-

sonal care and dementia facility of its kind to be under the professional guidance of local physicians specializing in dementia care.

Pocono Tranquil Gardens member doctor Mahesh D. Chhabria, M.D., knows first-hand the need that exists locally for these services. "As practicing neurologists in Monroe County, we see patients who suffer with Alz-

heimer's disease and other forms of dementia, being helpless. We see overburdened families and spouses experiencing significant stress in caring for their loved ones. With that in mind we wanted to establish a center of excellence in personal living and dementia care that would offer additional strategies in maintaining cognitive abilities and preserving one's dignity."

Personal care accommodations will continue to be offered on the facility's second floor with attractive introductory rates. In the coming months, **Pocono Tranquil Gardens** will also establish a secure residential dementia unit on the building's top floor. In addition to the secure unit, the facility plans to offer the option of adult day care services with cognitive therapy and specialized recreational activities – all geared towards providing much needed relief for the caregiver.

For more information, please contact **Pocono Tranquil Gardens** at 570-426-4000.

Each year the **Leadership Pocono** class is divided into groups to work on a project that benefits their local community. This year, one group has been given the assignment of creating a marketing plan and promotional material that will assist in promoting the Anger Management Course that is offered by **Catholic Social Services**. The group has met on a number of occasions with Tom Regan, Program Coordinator and Nitza Desire – Manpower and Catholic Social Services Board Member, to compose a plan that will increase attendance of the class. "I think it's important for the community to know that there is a resource and program available to reduce the incidents of domestic violence and violence in general. I also think it is important for businesses and corporations to be aware of a program that addresses work-place violence and harassment," said Tom Regan, Program Director of Catholic Social Services.

The Leadership Pocono students have been working diligently to bring forth the best approach to get the message across to both the court system as well as other local outlets. Not only is this program beneficial to those individuals that are court mandated to complete the course, but it is also going to benefit anyone that may need help in managing their anger or stress from day to day. The group will make recommendations for the future expansion of the Anger Management program and are hoping to see the course implemented into local businesses, schools, and as a part of employee wellness programs. The group is on target to complete the project by May 2013 and will give a presentation at The Sherman Theatre in June 2013.

“Leadership Pocono is a wholly-owned subsidiary of the Greater Pocono Chamber of Commerce. The program was established in 1997. Leadership Pocono provides the identification, development and empowerment of excellence in business, personal and community leadership. A learning experience like no other, where those who shape our community tomorrow develop leadership skills from those who are doing it today. Over 200 individuals have successfully completed this intensive program and are contributing to the communities in which they live and work. For more information on Leadership Pocono and how you can become involved please visit www.leadershippocono.org or contact Francesca Turturro, Leadership Pocono Coordinator, at 570-421-4433 or via email at lpcoordinator@leadershippocono.org.”
