Application Overview

A formal application must be submitted to receive a grant from the Foundation. Please review the application thoroughly as it may require an extensive explanation regarding several facets of your funding request.

Before you complete the application, please review the following criteria and evaluating factors listed below. The Board will primarily use these factors in determining your eligibility for a grant. Several of the criteria are critical and must be adhered to due to IRS regulations and the bylaws of the Foundation.

1. Does your organization have a 501(c)(3) IRS designation?

A copy of your designation letter must be submitted with the application. The Foundation cannot fund government entities, individuals and/or families or provide sponsorships of any kind through this grant program.

2. Will the funds be used to provide or improve services primarily in Monroe County?

A statement of such will be required in the application. Requests made from agencies and organizations headquartered outside of Monroe County will be reviewed annually.

3. All requests to the Foundation must be for \$1,500.00 or above.
4. Awards will be made to an agency or organization one (1) time within a three (3) year period following an approved request.
5. Staffing costs may be a portion of administrative costs. However, wherein financial support is predominately requested for funding of staff, it will not be eligible.

The Foundation's areas of interest are homelessness, temporary housing, education, community health and human services, and the arts. If your program or project does not come under one of these areas, it does not automatically preclude your request, but the above areas will be given priority.

All applications will also be evaluated based on the following factors:

- a. Number of people served - How many residents of Monroe County will be directly affected by the increase in services provided through the funding?

- b. Geographic area served – How large is the geographic area that the new or existing services will cover?
- c. Lasting effect of the grant – The Foundation is interested in specific programs or projects. Capital improvement or operation costs may be considered on a case-by-case basis.
- d. Ability to leverage grant – Grants used to obtain full or partial matching funding from public or private sources will be given priority.
- e. Stability and longevity of the organization – Newer organizations may be asked to provide in-depth program and financial projections.
- f. Ability of the project to continue if financial goal is not met – An explanation of how the grant will be used if the total fundraising goal is unattainable.

A request of \$15,000.00 or more may require a meeting with the Foundation's Board of Trustees. This excludes request for emergency vehicles; grants are capped at \$10,000.00 for all emergency responder agencies/organizations.

All requests will be reviewed by and final determinations will be made by the Board of Trustees of the Monroe County Bar Foundation.
